

Create Your Own Tax Break

Tax Planning Alert!

Take advantage of 2008 tax savings and acquire your equipment before year-end!

Under Tax Code Section 179, businesses that spend less than \$800,000 a Year on qualified equipment can write off up to \$250,000 in 2008.

<i>Equipment Cost Example:</i>	\$150,000
1st Year Write Off: \$250,000 ((\$250,000 is the maximum Section 179 write-off in 2008))	
Total 1st Year Deduction:	\$150,000
Tax Savings Assuming Rate of 35%: (150,000 x .35 = \$52,500)	\$52,500
1st Year Savings / Lowered Equipment Cost*: (150,000 - \$52,500 = \$97,500)	\$97,500

In this example the purchaser would still have \$100,000 of their Section 179 left for more 2008 purchases.

This sample calculation shows how taking advantage of Section 179 can **significantly** lower the true cost of equipment ownership from \$150,000 to \$97,500.
